Blind Rivet Nuts provide load-bearing threads in thin sheet materials that are too thin for a tapped thread. They are called "blind" because they can be installed from one side of the workpiece. Once the rivet nut is installed, additional components can be attached using threaded fasteners.

### Materials:

Steel, Stainless Steel, and Aluminum.  
Plating options available.

### Body Styles:

Hexagonal, Round, Slotted, Swaged,  
or RIV-FLOAT® with options available.
